

# We are still bargaining!

## Our next Negotiating Date is April 6.

The National Labor Relations Board is currently investigating our Unfair Labor Practice charges. Our first hearing with the Board is on March 31.

Ascension Health wants to turn our contract into policies that can be changed at any time, and remove our ability to advocate for our patients. We will NOT allow Ascension Health to impose artificial deadlines and pressure us into a contract that hurts our Hospital and destroys our Union.

## We stand united to protect OUR PATIENTS, OUR HOSPITAL, and OUR UNION CONTRACT.
